SOCIAL MEDIA OPTIONS FOR CONTENT MARKETING

BOOTSTRING YOUR SOCIAL REACH WITH PAID PROMOTION

A concerted social media strategy for your business should include both organic and paid elements, such as ads and promoted search results. Organic (unpaid) social media includes anything you post to your page. While that may generate a buzz on its own, paying to “boost” your posts can help separate you from the pack.

Considering that more than 80% of all Americans now use social media, the question isn’t whether your company should have a social media program, but whether it can afford not to have one. Yet keep in mind that each social media platform has its own best uses. Choosing the right approach for the right platform is essential to connect with your desired audiences.
